ALABAMA REPORTER,
THURSDAY MORNING, OCT. 22.

MR. THOS. S. SMITH of Springfield, is my authorized agent for my
advertisers from the country.

Feb. 18th, 1863. L. S. WHITE

“Ladies are you knitting socks for the soldiers? I believe that winter is coming.

Brax. Thos. H. WATTS.

It will be seen that this distinguished gentleman has a list of appointments for this portion of the State and will stand in a position of trust and power. Mr. Watts is a man of the ablest men in the State, a profound thinker, a popular speaker and a universal favorite with the people, his appointments will be largely attended.

In addition to the regular list of appointments his friends have made an additional one for him at Lincolnville on Wednesday night the 29th instant.

Gen. Forrest has resigned. It is said that his resignation has been accepted and that he will be tendered an independent command.

Death of Thos. A. COAT.

Mr. Thomas A. Coat, an old citizen of our County, who went to Vicksburg to look after his son, William, who was a member of the 30th Ala. and a tyro in the field, soon after Vicksburg fell before it was invested and was detained during the long and terrible siege.

His son William Coat, died just before the surrender of the city, and Mr. Coat himself was so sad as to be unable to come out with our troops when they were paraded. He remained in the city until Aug. 1st, 1862, when he was taken to New Orleans by General W. D. Odens, learned his condition, and through the influence of friends in the City, had him carried to New Orleans where it was thought he might be better cared for. Mr. Coat lingered until the 10th of Sept. and died at City of New Orleans.

The son of the valiant soldier in this County, was regarded by all as an honest man and a good citizen. His son a promising boy had scarce reached his manhood when called to offer his life on the altar of his country.

Fort Hudson Prisoners Exchanged.

We have been requested by Maj. S. L. KNOX to give notice to the members of the First Alabama Regiment that they have been regularly exchanged and notified when they are expected to report immediately at Chickamauga.

Camp Tracy near Demopolis, A. A. Oct. 17th, 1863.

Ed. Reporter.

Gentlemen—We had a grand review on yesterday of the troops encamped near the piano by Gen. Johnson and Hawes. The review was held at the Fair Grounds at Demopolis. The horses received full credit for the exertion of their new commandant, Gen. Hardee, and the field was lined with spectators. Demopolis sent forth her grace and beauty to gladden the heart of the thousands of Alabama and Mississippi who stood in the blustering thunders of the cannon and blustering bayonets during the forty seven days siege at Vicksburg. All honor to the fair angelic heroines that always cheer us with their smiles and presence on every suitable occasion.

These ladies are fit for a morning sun. They remain as fit as ever at home.

The boys are generally enjoying the best of health and are all well and in fact no doubt are doing every thing possible to make their mark. The Regiments are rapidly increasing; the old 1st is now numbers upwards of four hundred men in camp.

Yours with respect,

Co. “E” 31st A. S.

P. S.—Since writing the above I've had the honor of a review by him this evening in the streets of Demopolis.

He is a great person who has not only gained the admiration of the people of the Southern Confederacy, but whose name will be praised by generations yet unborn.

Yours &c,

W. M. H.

From Pensacola—We have seen a letter lately, from Pensacola, which says that the Yellow fever is raging in the Mexican Coast at that place.

The greatest part of the crews have been removed to San Juan Bautista at the quarantine station, and the rest are in an hospital at this place. One of these vessels left, by the favor of the Captain and one Lieutenant and Greenville Observer.

The State of ALABAMA,
See County.

President of the C. S. Army, before French
P. S.—A. P., a sotol more about four
years of age, about four feet in the field, and has
had a large share in the field, and has
been a great source of trouble to us. One
of these vessels left, by the favor of the
Captain and one Lieutenant and Greenville
Observer.
